PRODUCT INFORMATION SHEET

Warm shoes, SRC, S3, size 44

Product description

Men's insulated protective shoes are designed to protect the foot from external factors. Conforming with S3 safety class according to ISO 20345:2011. Footwear is made of high-quality KPU material. Shoes are equipped with steel toes that protect toes, among others against falling objects, debris, tools. Due to the anti-slip sole, they are perfect for walking on uneven and slippery surfaces. Shoes are recommended in the logistics, transport, automotive industry, renovation and construction work.

Characteristics

- made in accordance with the standard specifying requirements for safety footwear – EN ISO 20345:2011
- safety footwear category with additional properties, for work use – S3
- have SRC anti-slip properties
- reinforced heel housing
- limited water permeability and absorption
- steel toe cap for greater finger protection (withstands impacts up to 200 J)
- made of leather, black
