

PRODUCT INFORMATION SHEET

Flat cutting cable pliers

Product description

Pliers for cutting cables and single- and multi-core cables made of copper and aluminium, and for cutting the feet of electronic components during soldering on printed circuit boards. For work with low loads. Used in electronics, electrics, telecommunications and other assembly works.

Characteristics

- cutting cables with cross-sections in the range from 0.5 to 1.3 mm² (16 AWG);
- specially profiled flat blades make it possible to cut an element close to the surface, e.g. a printed circuit board;
- shaped cutting edges to prevent wires and cables from slipping during cutting;
- a spring that opens the handles automatically, significantly improves the work of the tool;
- durable, resistant to deformation;
- total length of the pliers: 125 mm;
- anti-slip handle for a comfortable grip and work comfort.
