

PRODUCT INFORMATION SHEET

Automatic insulation stripper

Product description

Automatic pliers for stripping insulation from single and multi-core cables, used in installation and assembly works. For medium and heavy loads. Used in electronics, electrics, telecommunications and other assembly works.

Characteristics

- The special design allows for automatic adjustment of jaws to the cable diameter in the range of 0.2-6.0 mm² (24-10 AWG);
- adjustment of the clamping force of the jaws;
- integrated crimping tool for crimping insulated terminals with a cross-section in the range of 0.5-6.0 mm² (10-22 AWG);
- built-in blade for cutting cables;
- the limiter enables the length of the stripped insulation to be adjusted;
- durable, resistant to deformation;
- high precision and accuracy of the work performed;
- bi-material, shaped, anti-slip handle, allowing for a comfortable grip and using the pliers.
