

PRODUCT INFORMATION SHEET

Stillson pipe wrench 600 mm, 24 " aluminum

Product description

Pipe wrench for plumbing and installation work. Perfect for undoing and tightening pipes, valves and union joints. Due to the aluminum body, it is characterized by lower weight, which makes it much easier to work with larger size wrenches.

Characteristics

- body made of aluminum is much lighter compared to steel wrenches, which makes it much easier to work, especially with larger size wrenches;
- jaws made of chrome-vanadium alloy steel, forged, hardened and ground;
- long handle for easy undoing;
- maximum pipe diameter for wrench: 600 / 24" – 100 mm (HT1P547).
