

## PRODUCT INFORMATION SHEET

# 850W Thermoplastic Pipe Welding Machine

### Product description

The 850W thermoplastic pipe welding machine enables a permanent connection by welding pipes and connecting elements made of plastic. Used for assembly work in the performance of hydraulic and pneumatic installations.

### Characteristics

- clear LCD display ensures precise reading of operating parameters;
- the control panel enables the selection of a precise temperature from 0 to 300 ° C, with an accuracy of 1 ° C, and its adjustment to the material being processed;
- built-in thermostat maintains a stable temperature during operation;
- the set includes adapters for pipes in 7 sizes, enabling the simultaneous heating of the external and internal surfaces of the joined elements;
- high power of the device allows the adapters to heat up quickly;
- adapters covered with a non-stick coating made of PTFE, which prevents the hot pipe from sticking;
- has protection against operation in low temperatures;
- equipped with traffic lights informing about the readiness to work;
- stable stand and small size guarantee comfortable and safe work.

### Set contains:

- Welder
- Stand for a welding machine
- Pipe adapters in sizes 16, 20, 25, 32, 40, 50, 63 mm
- Screwdriver and Allen key for mounting adapters
