

PRODUCT INFORMATION SHEET

Wrench with ratchet and joint with replaceable adapters 5 pcs

Product description

A ratchet spanner with a joint is used to unscrew and tighten threaded joints ended with a hexagonal or dodecagonal fixing element. Thanks to the ratchet, there is no need to take the spanner off the nut to take another turn, whilst the adapters allow for work with sockets of various sizes. The universal application allows for its usage both in the workshop, as well as in renovation, construction and installation works.

Characteristics

- ratchet ring spanner in size 19 mm;
- made of high-quality chrome-vanadium alloy steel, strong and durable;
- ratchet mechanism with 72 teeth;
- 1/4 "adapter for screwdriver bits included in a set;
- 1/4 ", 3/8", 1/2 "adapters make it possible to use this spanner as a standard ratchet for sockets;
- the joint allows for tilt adjustment of the head and work in hard to reach places.
