

Hexagonal Wrenches type-T with ball, long 10

Termékleírás

Precise hexagonal wrench with a hexagon cross-section was made of the highest quality S2 alloy steel, guaranteeing maximum strength and resistance to deformation. Thanks to the spherical ending, it is perfect for unscrewing and screwing screws at a large angle of inclination. Indispensable in workshops, renovation and construction works or in every household.

Jellemzők

- made of the highest quality S2 alloy steel, which guarantees maximum strength;
- resistant to deformation;
- elongated profile, using the effect of leverage, allows you to work with increased force;
- ball-end – spherical end facilitates the use of the key at an angle of inclination up to 30°, which is especially important when working in places with limited access;
- the use of a T-shaped handle provides a comfortable and secure grip.
