

PRODUCT INFORMATION SHEET

Hexagonal wrench set type-T with ball, long 8 pcs

Product description

8-piece set of long precision hexagonal wrenches made of the highest quality S2 alloy steel, guaranteeing maximum strength and resistance to deformation. They are perfect for loosening and tightening screws in tight spaces. They are indispensable in workshop, renovation and construction works or in every household.

Characteristics

- made of the highest quality S2 alloy steel, which guarantees maximum strength;
- resistant to deformation;
- elongated profile, using the leverage effect, allows you to work with increased force;
- ball-end facilitates the use of wrenches at an angle of inclination of up to 30°, which is particularly important when working in limited access areas;
- the use of the T-shaped handle provides a comfortable and secure grip.
