

PRODUCT INFORMATION SHEET

Turbo propane gas burner

Product description

Professional turbo gas burner, especially recommended for hydraulic, installation, roofing and workshop works. Used for welding, brazing (copper pipes up to 32 mm in diameter) and soldering (copper pipes up to 100 mm in diameter), tinning, screw-heating, paint burning, lighting barbecue, fireplaces and bonfires.

Characteristics

- robust brass body
- fuelled by propane gas or by MAPP gas mixture
- works with cartridges with a connecting thread G1" (M) or G 7/16" (M)
- TURBO nozzle gives a high temperature swirling flame significantly increasing heating capacity
- suitable for operation in any position at a 360° angle, enables work in inaccessible places
- portable and safe.
