

## PRODUCT INFORMATION SHEET

### Red laser level

#### Product description

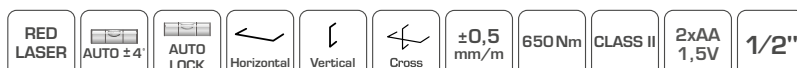

Professional self-leveling laser level for the precise defining of vertical, horizontal and cross lines with a laser beam. Its application ensures the highest precision of measurement and the elimination of errors in renovation and construction, finishing, assembly and installation works. It is also applicable to decorating works, e.g. hanging shelves or paintings. It can be used both indoors and outdoors.

#### Characteristics

- high self-leveling accuracy  $\pm 4^\circ$ , manual adjustment is not required;
- working range: beam up to 5 m / diameter up to 10 m;
- red laser beam ensures legibility and clarity of reading;
- self-leveling lock increases the comfort of work;
- 3 measurement options: horizontal, side vertical and cross;
- measurement accuracy at the level of 0.5 mm/m;
- laser wavelength 650 Nm;
- class II accuracy;
- 1/2" tripod thread;
- 360° rotating base for easy work;
- powered by 2 x AA 1.5V batteries;
- compact size and low weight ensure easy storage and transport of the level, which can be a basic equipment of a tool box.
