

PRODUCT INFORMATION SHEET

LUIS Protective knee pads black uni

Product description

LUIS protective knee pads protect the knees during long-term work in the kneeling position. Made of durable polyester, they meet the EN14404 standard. The inner side is filled with gel and EVA foam, which provides optimal shock absorption and comfort of use. The outer caps are made of PVC and effectively protect the knees from impacts. The knee pads are equipped with elastic straps with Velcro, which allows for easy adjustment. Knee pads are firmly fixed on the leg, light and universal, they are perfect for construction, renovation, installation and garden works.
