PRODUCT INFORMATION SHEET

NIMS Hi visibility rain jacket orange L (52)

Product description

A modern hi-visibility, orange jacket, without insulation. It is distinguished by lightweight and air permeability, it ensures maximum wearing comfort. It protects against rain (water resistance at the level of 2000 mm H2O) and wind. It increases safety when staying in conditions of reduced visibility, e.g. during movement at night and during bad weather conditions, e.g. rain or fog. The yellow colour of the product is aimed at industries in which employees must be visible, for example people building roads, streets, refineries, people working in ports, on oil rigs, at mining shafts, airports or mountain rescue.

Characteristics

- material: 100% polyester Oxford 300D, PU coating, 2000 mm H2O water resistance;
- product complies with EN ISO 13688, EN ISO 20471 class 2 and EN343;
- taped seams to prevent water ingress;
- fixed hood with 3D regulation, which enables height and depth adjustment;
- reflective strips providing visibility in difficult conditions;
- 3 pockets:

- 2 lower pockets;
- 1 inner pocket for documents;

- cuffs and the bottom of the jacket finished with an elastic band;
- application in industry, road construction, construction and services;
- possibility of additional branding (inner zipper in lining for easier customer logo application).
