

PRODUCT INFORMATION SHEET

Protective boots, S5, SRA, size 41

Product description

Men's safety boots / boots in line with safety class S5 according to ISO 20345:2011. The shoes are equipped with a steel toe cap that protects the toes and a steel piercing insert in the sole that allows you to work on the ground with sharp protruding objects. Thanks to the non-slip sole, the footwear is perfect for walking on uneven and slippery surfaces. On the other hand, antistatic properties guarantee safe use of shoes in both dry and wet environments. Shoes recommended in the industrial, logistics, transport and construction industries. Perfect for outdoor works.
