

PRODUCT INFORMATION SHEET

Metal grinding discs 10 pcs 230x6,8x22,23

Product description

A wheel made of high-quality fast cutting corundum aluminium oxide. Designed for grinding metal with an angle grinder. Perfect for removing unevenness, forming and grinding large metal surfaces for which low consumption of cut material is important. It can be used in heavy industry, hydraulics, construction and automotive industry. Due to the highest quality raw materials used, grinding wheels are perfect for professional use.

Characteristics

- guarantee of optimal adjustment of grinding speed and durability
- working speed 80 m/s
- maximum rotational speed: HT6D635 - 13 300 RPM HT6D636 - 12 250 RPM HT6D638 - 6 600 RPM
- diameter: HT6D635 - 115 mm HT6D636 - 125 mm HT6D638 - 230 mm
- thickness:
- made in accordance with EN 12413, guarantees safe operation
- lower power consumption and high grinding precision
- 10 pcs in a set

HT6D638 – 6,8 mm
