

PRODUCT INFORMATION SHEET

Drill bits for metal 3.5 mm, split point, 10 pcs

Product description

Product description Professional metal drill bits, made of specialised alloy steel, intended for boring holes in steel, cast iron, non-ferrous metals, and hardened plastics.

Characteristics

- made of very durable, hardened alloy steel;
- the applied technology of sharpening split point drills enables self-centring boring, even on oval surfaces, without any need for centre-punching of material;
- automated technology of polishing drill bits reduces the time needed for drilling;
- manufactured and sharpened with precision;
- countersink angle 135°;
- manufactured in accordance with the German DIN 338 standard;
- packed in practical plastic boxes that facilitate storage of drill bits.
