

PRODUCT INFORMATION SHEET

Flap disc 125x22,4 G100

Product description

Convex disc flap wheels designed for use with angle grinders of the diameter of 125 mm. For grinding and deburring of ordinary steel and stainless steel. Enable to remove paint coatings, rust and grinding of sharp edges and burrs. Used in industry, crafts, construction and households. Granulation range from G36 to G120.

Characteristics

- made of alumina-coated flaps with a textile base;
- fibreglass base, synthetic resin binder;
- thanks to the convex shape of the disc, the working surface with the flaps is inclined, which makes working with the angle grinder much easier;
- ensures fast and smooth grinding;
- noted for its high performance and longevity;
- ensures no slippage even at low pressure.
