

PRODUCT INFORMATION SHEET

Steering rod puller 28-35mm

Product description

The wrench is used to unscrew, tighten and adjust the inner joints of the steering rods. Suitable for all types of steering rods, in most car models. The device enables repairs to be carried out without dismantling the steering mechanism. Used in professional workshops and car services.

Characteristics

- drive: 1/2 "or 27 mm flat spanner;
- work in the range of 28-35 mm;
- key length 395 mm;
- thanks to its design, it facilitates work even in hard-to-reach places.
