

PRODUCT INFORMATION SHEET

Coil spring clamp 355mm, 2pcs

Product description

Spring pullers are indispensable in professional service of the chassis. Suitable for all types of springs in McPherson struts and independent springs. Pullers work with a 1/2" ratchet. They have a fine thread, which makes it easier to work under spring load. The work is safe due to specially profiled, two-armed handles.

Characteristics

- designed for workshops and services
- for dismantling suspension springs
- double and profiled handles
- forged
- trapezoidal threaded screw
- propeller size 21 mm
- knobs 1/2" possible
- operating range 355 mm.
