

## PRODUCT INFORMATION SHEET

### Coil spring clamp 305mm, 2pcs

#### Product description

Spring pullers are indispensable in the professional service of the chassis. Suitable for all types of springs in McPherson struts and independent springs. Pullers work with a 1/2 "ratchet. They have a fine thread, which makes it easier to work under spring load. The work is safe due to specially profiled, two-armed handles.

#### Characteristics

- designed for workshops and services
- for dismantling suspension springs
- profiled handles
- forged
- trapezoidal threaded screw
- propeller size 24 mm
- operating range 305 mm.
