

PRODUCT INFORMATION SHEET

Brake fluid tester

Product description

The electronic tester is designed to test the quality of the brake fluid. It allows you to check easily and quickly if the brake fluid does not contain too much water, which can lead to brake system failures. Mainly used in professional workshops and automotive services.

Characteristics

- 4 coloured LEDs indicate if the brake fluid under test can still be used safely or it should be replaced;
- designed for DOT-3, DOT-4, DOT-5 brake fluids;
- it detects water content from 0 to 5%;
- 9 V battery included;
- the rubber casing protects against mechanical damage and prevents from slipping out of hand.
