

PRODUCT INFORMATION SHEET

Fluid dispenser

Product description

Dispenser is designed for precise measuring and dosing of the desired amount of operating fluids. It will find application in heavy industry, agriculture, construction, as well as automotive in the service of industrial machines, combine harvesters, construction machines, cars, vans and trucks.

Charakteristics

- capacity 350 ml;
- designed for use with various operating fluids, such as oil, petrol, diesel, water and adblue;
- set includes a flexible hose which enables working in hard-to-reach places;
- protection of hose tip prevents the liquid from spilling out and ensures clean work;
- transparent casing and legible graduation allow for constant control of the dosed fluid;
- made of lightweight and at the same time durable, resistant to crack plastic.
